Subject: Wilmington Marine Services PCB-impacted soil Email 1 of 2

Good Morning George,

Thank you for taking the time to discuss this project with us on our call yesterday. I have attached our data tables and several figures including a site plan and a chem box figure. Due to the size of the lab reports I will send the second set in a separate email. The site address is 801 South Fries Avenue, Wilmington, CA. Will you be able to review the data and discuss additional requirements next week? Please let me know if you have any questions.

Regards,

Mark Withrow, PE

Subject: Accepted: Conference call to Discuss PCB-impacted soil
When: Monday, December 11, 2017 8:30 AM-9:30 AM (UTC-08:00) Pacific Time (US & Canada).
Where: Conference Call

Hello Mark I have received your invite and will accept. I am also attaching our PCB Fast tool kit which has useful tools in how to better understand TSCA and how its utilized and what USEPA expects in a notification/approval. I also recommend speaking with Rita Brenner and/or Pauling Sun as well as I work with both of them. I look forward to our discussion.
Thank you

George Randell
